

## Power Automate – Personal Project

### My flow: myeasy

The screenshot shows the 'My flows' page in Power Automate. The top navigation bar includes 'New flow', 'Run', 'Stop', 'Edit', and a menu. Below the navigation bar, there are tabs for 'Home', 'My flows', 'Shared with me', and 'Examples'. A table lists the flows, with 'myeasy' selected. The table has columns for 'Name', 'Modified', and 'Status'. The 'myeasy' flow is listed with a status of 'Currently editing'.

Name	Modified	Status
myeasy	5 months ago	Currently editing

### Actions in flow:

The screenshot shows the 'myeasy' flow editor in Power Automate. The left sidebar contains a list of action categories: Variables, Conditionals, Loops, Flow control, Run flow, System, Workstation, Scripting, File, Folder, Compression, UI automation, and HTTP. The main area displays four actions in a sequence:

- Launch new Microsoft Edge**: Launch Microsoft Edge, navigate to '[https://myeasy86.com/index.php?route=account/order\\_product](https://myeasy86.com/index.php?route=account/order_product)' and store the instance into **Browser**.
- Extract data from web page**: Extract data from specific fields in web pages, create a virtual table and store it into an Excel spreadsheet in **ExcelInstance**.
- Save Excel**: Save the Excel document stored into **ExcelInstance** as '[C:\Users\wan24\Desktop\myeasy](#)'.
- Close Excel**: Save the Excel document and close the Excel instance **ExcelInstance**.

The right sidebar shows the 'Variables' section with a search bar and a list of variables: **Input /**, **Flow va**, **(x) Brows**, and **(x) Excell**.

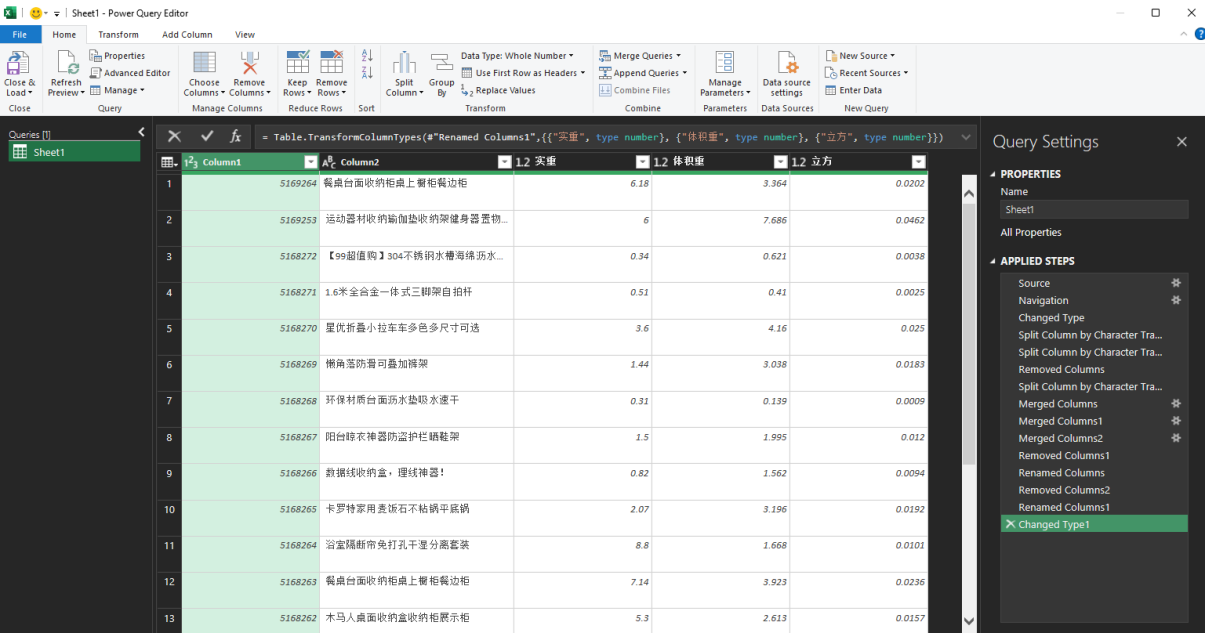

Launch Microsoft Edge and navigate to the website. Extract data from the page.
